

Corporate Governance is about Value and Purpose – Tata Groups

(November 30, 2016)

Corporate governance is the system of rules, practices and processes by which a company is directed and controlled. Corporate governance essentially involves balancing the interests of a company's many stakeholders, such as shareholders, management, customers, suppliers, financiers, government and the community.

The boardroom hassle which took place in October 2016 in the Tata Group surprised the world. The decision of removing Mistry from

independent companies of the Tata Group, and Ratan Tata's stand on certain decisions astonished the world. Can corporate governance be molded? Can we really treat corporate governance as road map? Can corporate governance shift its priorities? These and many other questions were tackled in a

workshop organized on Sunday, 15th January, 2017 for the students of EMBA. Students discussed their opinions and understanding with the speaker, Mr. Bharat Dhruv – Ex-Tata employee and CEO – Dhruv Maxx Gro.
